HOSTING

Hosting houses, maintains and channels your website to the end user, allowing any programmed action such as view, email, purchase, etc. with the ability to monitor and track your traffic flow with online statistical reports.

Aholattafun created a series of Hosting packages, by bundling these features together creating a five tier system based on a company's size and website requirements. Our servers are 100% in-house and not a 3rd party provider or located internationally, if a technical issue arises we act immediately to minimize potential downtime for our customers.

Our Servers Have:

Fiber-Optic Connection

Pro-Active 24/7 Monitoring

Hourly Backups

3 Day Archive Storage

Keep your monthly cost fixed with no additional surprise charges and trouble shoot technical issues with real people for as low as **\$19.95** a month!

Why Aholattafun Hosting?

Trouble shoot problems with real people

Fixed monthly pricing, no surprise additional billing

Real-time server status website

Bandwidth spread over website, FTP and email, not capped individually

*Service will continue if exceeds allotted capacity

*If service exceeds allotted capacity an *Aholattafun* Representative will contact client to discuss Hosting growth options. Service will continue uninterrupted at no additional cost for remainder of that month.

Contact an *Aholattafun* Representative and get your message seen.
